Objective

Passionate about technology and problem-solving, I aim to create innovative and impactful solutions through full-stack web development. With expertise in both front-end and back-end technologies, I strive to build seamless, user-centric applications that deliver exceptional user experiences. Eager to work in dynamic environments, I am dedicated to continuously learning and growing as a developer to drive the success of each project I contribute to.

Projects

Techninja | *HTML, CSS, JavaScript*   **March 2025**
- Developed a personal portfolio to showcase projects, skills, and achievements with an interactive gallery for technical skills and projects.

Algosys | *React, Django, Tailwind CSS*   **November 2024**
- Developed an interactive e-learning platform for teaching Data Structures and Algorithms (DSA) with real-time visualization and virtual labs for hands-on coding practice.
- Implemented a secure authentication system using JWT with Django as the backend, enabling role-based access for teachers and students.
- Teachers can track student progress, manage attendance, and update marks, ensuring a structured learning experience.

Electrocart | *React, Django*   **October 2024**
- Electrocart is a modern e-commerce platform for buying electronic gadgets, built with React and REST API to ensure a seamless shopping experience.
- It supports two user roles: Admins can upload, update, and manage products, while Users can purchase, like, and review items effortlessly.
- With an interactive UI and efficient product management, Electrocart makes online gadget shopping smarter and more engaging.

Learnex | *Html, CSS, JavaScript, Django*   **August 2024**
- Lernex is an e-learning platform designed for kids from 1st to 4th standard, offering an engaging and structured learning experience.
- It follows a track-based approach, where students first watch lectures and then reinforce their knowledge through game-based learning with 3D objects.
- By integrating gamified learning techniques, Lernex makes education fun, interactive, and effective for kids.

Technical Skills

Languages: C, Python
Frontend: HTML, CSS, JavaScript, React, Bootstrap, Tailwind CSS
Backend: Django
Databases: MySQL, PostgreSQL, SQLite
Developer Tools: VS Code, GitHub, Spline 3D

Achievements

- Winner of **Sinhgad Hackathon 2024**, solving real-world challenges with innovative solutions.
- Achieved a **4-star** rating in Python on HackerRank, demonstrating strong problem-solving and coding skills.

Education

SKN Sinhgad College of Engineering Korti, Pandharpur   **Aug. 2023 – Present**
Bachelor of Technology in Electronics and Telecommunication Engineering — CGPA: [9.98/10]   *Solapur, Maharashtra*

Abasaheb Khebudakar Junior College of Science, Atpadi   **Jun. 2021 – Mar. 2023**
Higher Secondary Certificate (HSC) — Percentage: [70.22]   *Sangli, Maharashtra*

Pimpari Highschool Pimpari Khurd   **Jun. 2015 – Mar. 2021**
Secondary School Certificate (SSC) — Percentage: [99.20]   *Sangli, Maharashtra*

Interest / Extracurricular

Runner-up in Group Dance Competition at Sinhgad Carnival 2K25.
- Awarded **Runner-up Prize** for a Group Dance performance at Sinhgad Carnival 2K25.
- Enjoy writing creative **poems** and insightful **articles** on diverse subjects.
